## LED Torch USB Sticks

USB Sticks with your company logo and an LED torch.

Light up any of your projects with our innovative swivel designed Light memory stick. With an integrated LED torch, this USB stick sets apart from its peers: gently squeezing its two branded faces together activates the bright LED and ensures that your promotional message shines brighter than the competition! The Light USB stick's dual-face resin dome protects your full colour branding and its smooth rotating metal shell insures that there is no cap to lose.

Where plastic and aluminium are used in the product's shell, these materials come from 100% recycled sources.

**RoHS:** This product fully conforms to RoHS Directive (EU Restriction of hazardous substances)

Standard Service 8 Day Delivery
